

required by paragraph (c)(3) of this section also states that: The container seals specified in paragraph (c)(1)(iii)(C)(I) of this section were found intact and free of any evidence of tampering on arrival at the processing establishment by a national veterinary inspector; and the processing establishment from which the pork or pork product is shipped to the United States does not receive or process any live swine, and uses only pork or pork product which originates in regions listed in paragraph (a) of this section as free of classical swine fever and processes all such pork or pork products in accordance with paragraph (c)(1)(i), (ii), or (iii) of this section.

(2) Articles under paragraph (c)(1)(ii) or (iii) of this section were prepared in an inspected establishment that is eligible to have its products imported into the United States under the Federal Meat Inspection Act and § 327.2 of this title; and,

(3) In addition to the foreign meat inspection certificate required by § 327.4 of this title, pork and pork products prepared under paragraph (c)(1)(ii) or (iii) of this section shall be accompanied by a certificate that states that the provisions of paragraph (c)(1)(ii) or (iii) of this section have been met. This certificate shall be issued by an official of the national government of the region of origin who is authorized to issue the foreign meat inspection certificate required by § 327.4 of this title.¹¹ Upon arrival of the pork or pork products in the United States, the certificate must be presented to an authorized inspector at the port of arrival.

(4) Small amounts of pork or pork product, subject to the restrictions in this section, may in specific cases be imported for purposes of examination, testing, or analysis if the importer applies for and receives written approval for such importation from the Administrator. Approval will be granted only when the Administrator determines that the articles have been processed by heat in a manner so that such im-

portation will not endanger the livestock of the United States.

(d) Thoroughly cured and fully dried pork and pork products from regions where both classical swine fever and swine vesicular disease are known or considered to exist need not comply with paragraph (c)(1)(iii) of this section if they are in compliance with the provisions of § 94.12(b)(1)(iii) of this part.
